BROADCLOTHS.

There is no doubt but that Broadcloths will be the most popular of all the fall and winter woolen fabrics. No other fabric drapes so well, is half so stately in effect, or will make up so well in the prevailing fall styles of Drapery. Manfuactuers appear sure of this from the fact that they have produced them in an endless variety of rich and attractive shades.

RIDDLED BY BULLETS!

Twenty-Two Negroes Rest Beneath the Sod as a Result of the Mississippi Riots.

GREENWOOD, Miss., Sept. 6.—Twenty-two negroes, and possibly more, who were working on a cotton plantation on Monday morning, now rest beneath the sod in Leflere county, riddled by bullets. They were killed for resisting arrest. One was killed on Monday or Tuesday, and the others Wednesday and Thursday. The leaders of the insurrection, George Allen and Oliver Cromwell, have both escaped, though it is thought that Allen was captured last evening. Cromwell was caught in Jackson Wednesday, but for some reason was turned loose.

The negroes are in a frightful state of fear and two have gone crazy over the excitement. The negroes have threatened to burn every house in Leflere county and every house is being closely guarded. More than 2,000 laborers have quit the fields and the cotton and corn needs gathering badly.

NEW ORLEANS, La., Sept. 6.—A letter from Leflere county, says armed negroes are now scattered in squads in the swamps and are being pursued by three hundred armed white men. Negroes, being refused ammunition at Jamison's store on the Tallahatchie river, burned the building. A posse pursued, and about forty negroes were killed at the other end of the parish.

Governor Lowry is severely denouuced by the white people of Leflere for not sending Cromwell back to them. They charge that Colonel John Hampton, lessee of the state penitentiary, used his influence to save Cromwell, who is an ex-convict.

VITRIOL IN HIS EYES.

A Bourbon Doctor is Given a Severe Punishment.

BOURBON, Ind., Sept. 6.—Mrs. Myers, the wife of a blacksmith, Wednesday night threw vitriol in the face of Dr. T. F. Linn, a prominent physician, destroying his sight. Her brother then assaulted the doctor, giving him a terrible whipping. It is charged that the doctor took advantage of a professional call to betray the woman. Her husband finding it out concocted with his brother-in-law, the plot to punish the doctor. The husband left town and the wife invited the doctor to the house. When he arrived the assault was made. The victim is in a critical condition. No arrests have been made.

CHICAGO WANTS IT.

George M. Pullman Gives $100,000 to the World's Fair Fund.

CHICAGO, Sept. 6.—George M. Pullman has subscribed $100,000 to the world's fair fund. To a reporter, who called on him, Mr. Pullman would only admit that he had seen the advisability of giving an immediate impetus to the work of raising $5,000,000 by securing a half million in one lump from five citizens of Chicago in subscriptions of $100,000 each. Who the four besides Mr. Pullman are has not been divulged, but P. D. Armour and Marshall Field are mentioned as two of them.

This morning, at the home of the mother, on Chicago street, occurred the death of the little child of Miss Green, a colored girl. The child is one of the twins whose death was sensationally mentioned in THE SENTINEL some time since.

The other child died several weeks ago. The children were illegitimate. One was a white child and the other was colored, and the father, Ed Phillips, was a white man, who skipped the city to avoid being arrested on a charge of bastardy. The dead child was buried this afternoon.

INTO THE ABYSS BELOW!

The Tragic Death of Mrs. Lawrence at Niagara Falls Vividly Described.

NIAGARA FALLS, Sept. 6.—Mrs. Lawrence deliberately walked to the little step-off place in the park about two hundred and fifty feet from the brink, threw her parasol and pocket book into the rapids, and jumped in herself. There was a considerable crowd around, and they helplessly watched the woman as she floated to certain death. She laughed, but not insanely, so the eye witnesses say. When almost at the brink an eddy caught her, twirled her around, and she went over head first into the abyss below. All the way down she had smiled and laughed and waved her hands, and this she kept up even when going head-first over the falls.

The woman's body was within fifteen feet of Prospect Point and people there were horrified. A photographer tried to take a view of the suicide, but the torrent was too quick for him, and Mrs. Lawrence's death smile will only last in the minds of those who saw her die. Everybody watched the torrent below to see if the body came up. In less than five minutes the woman's dress was washed ashore, not far from the foot of the falls, and ten minutes later her naked body came up in the still water near the new suspension bridge and floated on its dark green surface.

It was a sight never to be forgotten by those who saw it.

Mrs. Lawrence was nearly six feet tall and weighed 150 pounds. The woman was dead. Her neck had evidently been broken when she plunged headforemost over the cataract. The corpse floated down a few hundred feet and touched a current which pulled it under the surface, and it was not seen afterward. A telephone message sent from Suspension Bridge to Lewiston, at 10 o'clock last night, was answered by Coroner Robinson that the body had not been recovered. He thought that it was stuck in the whirlpool and some days might elapse before it was given up.

TO SETTLE AN ESTATE.

The Identity of an Unknown Dead Man is Sought to Be Established.

MANSFIELD, Ohio, Sept. 6.—J. K. Anderson, of Toledo, and E. K. Emerick, of Ypsilanti, Mich., were in the city last night making inquiries concerning the body of an unknown man found in Pugh's woods five miles east of this city. They think the body is that of A. C. Emerick, a brother of E. K., who has been missing a long time and from the tenor of a letter written a friend it is supposed he contemplated suicide.

If they can establish the identity of the unknown as that of the missing Emerick it will enable them to settle an estate in which the Emericks are interested. The two Emericks were engaged in the sale of Sapolitan, a preparation for cleaning metals, and Anderson was a general agent. The last four years both A. C. Emerick and Anderson made Toledo their headquarters.

CLEVELAND, Ohio, Sept. 6.—The body of a well dressed man, evidently a foreigner, was found in the lake, just inside the breakwater, here, this morning. Foul play is suspected, as around one wrist was tied a piece of rope, which, it was evident, had also been fastened to the other arm.

DEADLY DYNAMITE!

A Frightful Explosion at Antwerp by Which 126 Persons are Killed and Others Injured.

ANTWERP, Sept. 6.—A large quantity of dynamite exploded in a cartridge factory here to-day, totally demolishing that portion of the building in which the explosive was kept. The factory was located in the vicinity of the Bourse, which at the time of the explosion was crowded. Burning fragments of the factory were hurled against the Bourse, setting it on fire and creating a panic among the members, several of whom were injured.

Of the employes of the factory 126 were killed and many others in a nearby building were badly wounded.

The explosion occurred in a factory situated immediately back of the docks, upon which millions of cartridges were being unloaded. Large petroleum stores stood adjacent to the factory and these were set on fire by the burning fragments and now are burning fiercely.

Talk for Bachelors.

Select the girl.

Agree with the girl's father in politics and the mother in religion.

If you have a rival keep an eye on him; if he is a widower keep two eyes on him.

Don't put much sweet stuff on paper. If you do you will hear it read in after years, when your wife has some especial purpose in inflicting upon you the severest punishment known to a married man.

Go home at a reasonable hour in the evening. Don't wait till the girl has to throw her whole soul into a yawn that she can't cover with both hands.

But above all buy your clothes at Original Pete's and you can rest assured your girl will be "all right."

THE Ohio state fair is in progress this week at Columbus.

THE highest millinery authorities say that velvet bonnets will be the fashionable thing.

ONE of the largest colored churches in Washington has presented Fred Douglass with a handsomely bound Bible.

THE largest bar of gold ever cast in the world was turned out at the United States assay office at Helena, Montana, this week, weighed 500 pounds, and is worth a little over $100,000. It will be placed on exhibition at the Minneapolis exposition.

THE oyster has beaten the school boy and ended his vacation. He returned to us just six days ago. During the months having no "r" in them he rests and grows fat and comes back to us with the September days. He'll remain for the winter. His name will be on many a restaurant sign and he'll introduce himself to us at 25 cents a dish. The return of the oyster is welcomed by all lovers of the bivalve and those who do not love him are few indeed. Greetings to the oyster!

A SPECIAL to the Detroit *Free Press* says: "The fiat has gone forth that Tanner is to go. Secretary Noble said a short time since to a gentleman who is my informant that either Tanner must go or he would. The exact date Tanner is to resign is not known, but it is presumed not until after the fall elections. Tanner as a surplus spender has attained a certain popularity among the old soldiers and the administration has been rather chary in tackling him. As a matter of fact, while Tanner has been credited with opening wide the doors to applicants for pensions, the administration set the pace long before Tanner became pension commissioner by boasting what it was going to do for the soldiers. Bussey's rulings on pension cases are not one whit less ridiculous than some of Tanner's acts. Between Bussey and Tanner the pension system has been brought into ridicule. Why Bussey should be permitted to remain and Tanner be ousted is a question."

A CATHOLIC CENTENNIAL.

The centennial anniversary of the establishment of the Catholic church in the United States, which is to take place in Baltimore on the 11th, 12th and 13th of November, promises to be one of the greatest religious events that has ever taken place in the Monumental City. It will bring together an imposing assemblage of the Catholic hierarchy, as well as a large concourse of the Catholic laity. Nearly all the archbishops and bishops of the United States will be present and the pope will send a representative delegation from the vatican. Canada will be represented by a number of prelates and South America will also send a delegation. The whole affair will be under the immediate direction of Cardinal Gibbons.

A number of subjects have been selected for consideration and discussion, among them being: "The Lay Action of the Church," "Charities," "Education," "Societies," "Immigration," "Civilization" and "The Progress Made by the Catholic Church During the Last Century." George D. Wolff, LL. D., editor of the *Catholic Standard* and *Catholic Quarterly Review*, will read a paper on "The Catholic Press."

MR. BERGHOFF'S CARD.

Ex-City Treasurer H. C. Berghoff has a communication in this morning's *Journal*. Among other things he says:

"The amount in the treasury August 31, 1889, separate from the water works fund, was $95,024.10; or $46,024.10 more than in 1883.

"The second installment will bring about $55,000 more taxes, making a grand total available until next duplicate, of $150,024.10, as against $49,000 in 1883.

"It is true $39,689,81 belongs to the city hall fund, and can not legally be used for any other purpose, but I think no jury would be found that would send a man to prison who would borrow, in case of necessity, from this fund, belonging to the city, for a month or two in order to save interest for the city.

"Aside from this the city has $18,000 or more in the interest fund than is necessary. This can readily be transferred to the general fund.

"But the whole case in a nutshell is this:

"If the city, from 1883 to 1889—with $15,000,000 property appraisement and $1.00 levy, with a bonded debt of $825,000 and only $49,000 cash on hand—could pay off about $90,000 of its bonded debt and still have $100,000 more cash available now than then, why cannot the present government take the same tax levy, with $18,000,000 property appraisement and $150,000 available money, and less interest to pay, and keep out of the hole?

"Then take the sum of about $30,000 per annum, formerly saved, and apply it to the payment of debts and improvement of the city.

"To increase the appraisement to the proper value is right and just, but to increase the levy 15 cents on $100, so as to raise a net revenue over former years of $47,000, is wrong. For instance, add to this $47,000 the $30,000 annually saved heretofore and you have $77,000 extra money which the council can expend outside of its regular routine bills during next year, and then not taking into consideration the net earnings of water works. The money should be left in the pockets of the people."

NOT NOW!

The County Commissioners Will Not Erect an Additional Building at the Asylum at Present.

Supt. John Wilkinson, who filed a petition with the county commissioners yesterday asking for relief from the crowded condition of the insane wards of the county asylum, will probably have to endure the conditions the coming winter, as no building will be erected this year. This is unpleasant for the efficient superintendent, who has crowded forty-four patients into a space intended for twenty-four. He is at wits end to know what he is to do.

The following insane patients are now at the asylum:

Peter McTague, Mr. Socker, Henry Quinlan, Martin Barcus, Thos. Finn, Fred August, Michael O'Connor, Lewis Rheine, Peter Winters, Jacob Parker, Antony Kemp, Patrick Kane, Claus Shyall, Joseph Metan, Lewis Schrader, Henry Neireiter, Perry Snurr, Paul Seibelist, Wm. Palmer, Henry Palmer, T. J. Hammond, Peter Walsmuth, John Spring, Christian Kerkhoff, Rebecca Albright, Amanda Smith, Barbara Dagitz, Barbara Reese, Mary Klinger, Rebecca Clark, Mary Buquardt, Mary Grover, Barbara Shellner, Ellen Fitzgerald, Caroline Rabel, Lizzie Schreck, Mrs. Welker, Ellen Keefe, Mary Sprankle, Martha Gouty.

The above are all chronic cases. They have all been returned from the asylum except Reese, Fitzgerald and Shyall.

Pond's Extract has long been a friend of mine and the various afflicted ones with whom I come in contact. It truly seems a conscientious remedy, and one has only to read upon the wrapper the many ills for which it is a cure to realize fully what an overwhelming load of responsibility each bottle bears upon its shoulders. Out upon the pessimist who thinks the world is not advancing! I shall shake my bottle of Pond's Extract in his face, freely and annoint his demented head with the same; and when the cure is established write you to add, "Pessimism" to the next labels you have printed.

JUNIATA STAFFORD.

There was a terrible epidemic of dysentery and bloody flux in Pope County, Illinois last summer. As many as five deaths occurred in one day. Messrs. Walter Brothers, of Waltersburg, sold over 380 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy during this epidemic, and say that they never heard of its failing in any case when the directions were followed. It was the only medicine used that did cure the worst cases. Many persons were cured by it after the doctors had given them up. 25 and 60 cent bottles for sale by Geo. H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured me.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

Mr. Fred Foster and wife will leave about October 1 for Pueblo, Col., probably to remain there permanently. It had been Mr. Foster's intention to return to Las Vegas, New Mexico, but he abandoned the idea. His health is improving.

Not long ago The Sentinel stated that the rumor was current that with the retirement of General Manager E. T. Jeffery, of the Illinois Central railroad, the well known and popular ex-Wabash official, Mr. K. H. Wade, would be appointed to fill the vacancy. There is a prevailing idea that such official change will come to pass.

Effie Ellsler, the best known and most natural actress with her excellent company, including Frank Weston and John Ellsler, will present "The Governess" at the Temple Monday next. Miss Ellsler was the lady who created the part of Hazel Kirke, which ran for three years in New York city and twelve hundred nights on the road.

Toledo *Bee*: "Yesterday at Fort Wayne Dr. Thomas Hubbard, of this city, was married to Miss Charissa L. Graves, a popular belle of Fort Wayne. Dispatches say it was the fashionable event of the season in that city. THE BUSY WHEEL.

The News of the Day as Gathered Around the Railroads and Manufactories of the City.

The office of the Natural Gas company is being improved and furnished.

Louis Brown, of the Bass works, is at the City hospital ill with typhoid pneumonia.

Charles Bates, of the Pittsburg blacksmith shops, has resigned his position at that place.

General Superintendent E. B. Taylor, of the Pittsburg, passed through the city last evening.

Ernest Rehling, boiler maker at the Wabash, is off duty on accoount of injuries received from being kicked by a cow.

Superintendent Victor A. Sallot, of the Olds wheel works, holds the reins behind a fast horse, and he knows how to drive.

The Fort Wayne Furniture company received an order yesterday for half a car load of folding beds from Washington, D. C.

William Madison, jr., machinist, is acting foreman of the machinery department of the Pittsburg car shops this week.

The Wabash sells excursion tickets to Toledo and return next week on account of the Tri-State fair, for $2.50 for the round trip.

J. S. Winnett, general agent, and T. G. Winnett, traveling freight agent of the Chicago, St. Paul and Kansas road, were in the city yesterday.

General Ticket Agent E. A. Ford and other officials of the Pennsylvania road, passed through the city last evening on a special coach attached to No. 8.

Mr. Adams, statistician of the interstate commerce commission, figures up the total sum invested in the lines of the Pennsylvania railroad system at $748,040,929, divided as follows: Pennsylvania company, $43,532,916; Western lines, $204,721,505; Pennsylvania railroad and branches, $361,648,620; controlled lines, $138,137.888. Of this sum $322,726,989 is represented by capital stock, $322,214,148 funded debt, and $10,099,592 floating debt.

Nearly ten thousand men who are or have been in actual service as railroad brakemen have signed a petition in which the inter-state commerce commission is urged to take action that shall cause the adoption of automatic couplers and brakes on freight cars throughout the country, in order that "the terrible slaughter of brakemen on the railroads every year may be largely diminished." As the commission is not empowered by existing law to require the desired changes to be made, the petitioners ask that the attention of congress shall be directed to the subject.

The distribution of Poor's Manual, twenty-second annual issue, for 1889, is now going on. The preface is full of instructive matter. It shows that a population of 3,000,000 in 1789 has grown to 65,000,000, and in the sixty years ending in 1888 has built for itself 156,082 miles of railroad, at a rate, since 1865, of 5,260 miles per annum. Mr. Poor estimates the number of railroad employes at six per mile (say 936,000); the number of employes in affiliated and dependent industries at five per mile (780,000). These, with their families, make a total of 8,850,000, or nearly a seventh of the population.

Peculiar

In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "tower of strength abroad," peculiar in the phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite.

"Con Conroy & Co." is being billed for Wednesday and Thursday, Sept. 11 and 12.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free*, that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

Harvest Excursions.

The Wabash railroad will run a series of harvest excursions to points in Kansas, Nebraska, Oklahoma, Missouri, Arkansas, Texas, New Mexico, Utah, Idaho Colorado, Wyoming, Dakota, Montana, Minnesota, Iowa, Tennessee, Louisiana, and Mississippi on September 10 and 24, and October 8, 1889. Tickets will be sold at one fare for the round trip, and will be limited to return passage thirty days from date of sale. Full and explicit information furnished upon application to

PRETTY FLOWERS.

The Sentinel's House Reporter Gets Stuck on Flowers for Window Decorations.

Tell me ladies, you who try to make home pleasant and inviting, what decorative art is less expensive, more cheering and as beautiful as a few well kept house plants—an ivy well trained and a warbling canary or two?

One of the prettiest window embellishments imaginable can be produced by filling the window sills with ferns. They only require a moderate temperature, little sun, moist sandy soil and remain green the entire winter. The time is fast approaching when winter evening enjoyment will be thought of, but how to make the days pleasant should not be forgotten.

Where there is a fire place; the fender may be leveled with small pieces of board; these form a foundation to spread the soil on; here the ferns can be set and they grow luxuriantly in all seasons of the year. Why, just think, a caserole, bowl, in fact almost any broad-brimmed vessel, can be appropriated (that's a good word) from the china closet, and when filled with forest plants of delicate green verdure, will make pleasing ornaments for most any room and rest the weary eye.

The Mistletoe bough in December is not any more pleasing in appearance than a hanging basket of ferns in a bay window or in a double door. The basket should be well filled, and if a few sprigs of the "Wandering Jew" be added, this lovely trailing plant will add greatly to its embellishment. If ladies do not care to trouble with the planting, any florist will gladly arrange the same and keep it for a "good start" till wanted, and the expense is certainly within the reach of the most humble.

Another pretty device that will puzzle and interest the casual observer, can be produced with an ordinary tea cup, filling the cup with a cheap sponge and forcing into the cavities of the sponge common beans and peas, keeping well watered, and you will be not a little surprised to see the whole over-run with a beautiful green vine in a very short space of time. Heat and light will hasten its growth, therefore a sunny window is a preferable position for a novelty of this kind.

Here is another beauty for bay windows, a movable bracket, on each side a flower pot containing a heliotrope. With little care, say a drink of soap suds several times a day, you will find the pots completely covered with this bushy plant all winter and many a guest to your home can be presented with a [illegible]

There are so many very inexpensive ways to ornament and so many pretty plants that are cheap, I dare not venture to name only the English ivy and smilax by way of suggestion for fear of exposing my ignorance, knowing that the ladies could make improvements upon any list not furnished by a practical florist, but if these few remarks by a novice will aid the ladies and enthuse new energy to make their homes a haven, the horse reporter has been amply repaid. Hoosier.

The Indiana State Republican association held a meeting at Spring Fountain park, Warsaw, closing yesterday. Wednesday the visiting members were the recipients of a banquet, in which W. H. Elliott, of the New Castle *Courier*, was master of ceremonies. Last night Congressman Owen, of Logansport, delivered a lecture, his theme: "The Benefit of Commercial Relations With South America." Prof. N. R. Leonard, of the *Gazette*, read a paper, "The Republican Press."

Huntington *Herald:* "Mrs. Louisa Strodel went to Fort Wayne this morning to attend the funeral of Henry Bullerman, which will be held to-morrow afternoon. Mr. Strodel will join her to-morrow morning, as may also a number of other friends and relatives of the deceased."

Mayor Harding, the fire commissioners, consisting of Councilmen Read, Ely, Scheid, and Huser, and Chief Hilbrecht, returned from Chicago this morning. The object of the trip was to examine fire ladders. It is said that Councilman Ely climbed the dizzy height of the extension and tried to look over into the Summit City.

The annual reunion of the Eighty-eighth Indiana regiment passed off a success at Auburn, Ind., yesterday. A large number from the county and city were in attendance. Capt. Allan H. Dougall is adjutant of the regiment and labored energetically to make the affair what it was. He was liberally assisted. The Ladies' Relief corps, of Auburn, furnished dinner and supper. The order maintained throughout was commendatory to the G. A. R. Speeches were made by Captain Lewis, Captain Boltz and others.

When the leaves begin to turn, the month of October, the ceremony will occur which will unite in holy matrimony two well known young people of this city, Mr. R. G. Thompson and Miss Louise Horton. Mr. Thompson is well known to our citizens as the local passenger agent of the Wabash, than which more efficient never served for the road in that capacity. He is clever, popular and wise. I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured me.

LONG LIFE.

There is nothing in the world, more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

Mr. Fred Foster and wife will leave about October 1 for Pueblo, Col., probably to remain there permanently. It had been Mr. Foster's intention to return to Las Vegas, New Mexico, but he abandoned the idea. His health is improving.

Not long ago THE SENTINEL stated that the rumor was current that with the retirement of General Manager E. T. Jeffery, of the Illinois Central railroad, the well known and popular ex-Wabash official, Mr. K. H. Wade, would be appointed to fill the vacancy. There is a prevailing idea that such official change will come to pass.

Effie Ellsler, the best known and most natural actress with her excellent company, including Frank Weston and John Ellsler, will present "The Governess" at the Temple Monday next. Miss Ellsler was the lady who created the part of Hazel Kirke, which ran for three years in New York city and twelve hundred nights on the road.

Toledo *Bee*: "Yesterday at Fort Wayne Dr. Thomas Hubbard, of this city, was married to Miss Charissa L. Graves, a popular belle of Fort Wayne. Dispatches say it was the fashionable event of the season in that city. The marriage is somewhat of a surprise to the doctor's friends here, but all are prepared to give him and his bride a warm welcome."

The Wabash sells excursion tickets to Toledo and return next week on account of the Tri-State fair, for $2.50 for the round trip.

J. S. Winnett, general agent, and T. G. Winnett, traveling freight agent of the Chicago, St. Paul and Kansas road, were in the city yesterday.

General Ticket Agent E. A. Ford and other officials of the Pennsylvania road, passed through the city last evening on a special coach attached to No. 8.

Mr. Adams, statistician of the interstate commerce commission, figures up the total sum invested in the lines of the Pennsylvania railroad system at $748,040,929, divided as follows: Pennsylvania company, $43,532,916; Western lines, $204,721,505; Pennsylvania railroad and branches, $361,648,620; controlled lines, $138,137.888. Of this sum $322,726,989 is represented by capital stock, $322,214,148 funded debt, and $76,099,592 floating debt.

Nearly ten thousand men who are or have been in actual service as railroad brakemen have signed a petition in which the inter-state commerce commission is urged to take action that shall cause the adoption of automatic couplers and brakes on freight cars throughout the country, in order that "the terrible slaughter of brakemen on the railroads every year may be largely diminished." As the commission is not empowered by existing law to require the desired changes to be made, the petitioners ask that the attention of congress shall be directed to the subject.

The distribution of Poor's Manual, twenty-second annual issue, for 1889, is now going on. The preface is full of instructive matter. It shows that a population of 3,000,000 in 1789 has grown to 65,000,000, and in the sixty years ending in 1888 has built for itself 156,082 miles of railroad, at a rate, since 1865, of 5,260 miles per annum. Mr. Poor estimates the number of railroad employes at six per mile (say 936,000); the number of employes in affiliated and dependent industries at five per mile (780,000). These, with their families, make a total of 8,850,000, or nearly a seventh of the population.

Peculiar

In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "tower of strength abroad," peculiar in the phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite.

"Con Conroy & Co." is being billed for Wednesday and Thursday, Sept. 11 and 12.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free*, that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

Harvest Excursions.

The Wabash railroad will run a series of harvest excursions to points in Kansas, Nebraska, Oklahoma, Missouri, Arkansas, Texas, New Mexico, Utah, Idaho Colorado, Wyoming, Dakota, Montana, Minnesota, Iowa, Tennessee, Louisiana, and Mississippi on September 10 and 24, and October 8, 1889. Tickets will be sold at one fare for the round trip, and will be limited to return passage thirty days from date of sale. Full and explicit information furnished upon application to

PRETTY FLOWERS.

The Sentinel's House Reporter Gets Stuck on Flowers for Window Decorations.

Tell me ladies, you who try to make home pleasant and inviting, what decorative art is less expensive, more cheering and as beautiful as a few well kept house plants—an ivy well trained and a warbling canary or two?

One of the prettiest window embellishments imaginable can be produced by filling the window sills with ferns. They only require a moderate temperature, little sun, moist sandy soil and remain green the entire winter. The time is fast approaching when winter evening enjcyment will be thought of, but how to make the days pleasant should not be forgotten.

Where there is a fire place; the fender may be leveled with small pieces of board; these form a foundation to spread the soil on; here the ferns can be set and they grow luxuriantly in all seasons of the year. Why, just think, a casserole, bowl, in fact almost any broad-brimmed vessel, can be appropriated (that's a good word) from the china closet, and when filled with forest plants of delicate green verdure, will make pleasing ornaments for most any room and rest the weary eye.

The Mistletoe bough in December is not any more pleasing in appearance than a hanging basket of ferns in a bay window or in a double door. The basket should be well filled, and if a few sprigs of the "Wandering Jew" be added, this lovely trailing plant will add greatly to its embellishment. If ladies do not care to trouble with the planting, any florist will gladly arrange the same and keep it for a "good start" till wanted, and the expense is certainly within the reach of the most humble.

Another pretty device that will puzzle and interest the casual observer, can be produced with an ordinary tea cup, filling the cup with a cheap sponge and forcing into the cavities of the sponge common beans and peas, keeping well watered, and you will be not a little surprised to see the whole over-run with a beautiful green vine in a very short space of time. Heat and light will hasten its growth, therefore a sunny window is a preferable position for a novelty of this kind.

Here is another beauty for bay windows, a movable bracket, on each side a flower pot containing a heliotrope. With little care, say a drink of soap suds several times a day, you will find the pots completely covered with this bushy plant all winter and many a guest to your home can be presented with a spray when snow covers the ground. There are so many very inexpensive ways to ornament and so many pretty plants that are cheap, I dare not venture to name only the English ivy and smilax by way of suggestion for fear of exposing my ignorance, knowing that the ladies could make improvements upon any list not furnished by a practical florist, but if these few remarks by a novice will aid the ladies and enthuse new energy to make their homes a haven, the horse reporter has been amply repaid. HOOSIER.

The Indiana State Republican association held a meeting at Spring Fountain park, Warsaw, closing yesterday. Wednesday the visiting members were the recipients of a banquet, in which W. H. Elliott, of the New Castle *Courier*, was master of ceremonies. Last night Congressman Owen, of Logansport, delivered a lecture, his theme: "The Benefit of Commercial Relations With South America." Prof. N. R. Leonard, of the *Gazette*, read a paper, "The Republican Press."

Huntington *Herald*: "Mrs. Louisa Strodel went to Fort Wayne this morning to attend the funeral of Henry Bullerman, which will be held to-morrow afternoon. Mr. Strodel will join her tomorrow morning, as may also a number of other friends and relatives of the deceased."

RIDDLED BY BULLETS!

Twenty-Two Negroes Rest Beneath the Sod as a Result of the Mississippi Riots.

GREENWOOD, Miss., Sept. 6.—Twenty-two negroes, and possibly more, who were working on a cotton plantation on Monday morning, now rest beneath the sod in Leflore county, riddled by bullets. They were killed for resisting arrest. One was killed on Monday or Tuesday, and the others Wednesday and Thursday. The leaders of the insurrection, George Allen and Oliver Cromwell, have both escaped, though it is thought that Allen was captured last evening. Cromwell was caught in Jackson Wednesday, but for some reason was turned loose.

The negroes are in a frightful state of fear and two have gone crazy over the excitement. The negroes have threatened to burn every house in Leflore county and every house is being closely guarded. More than 2,000 laborers leave quit the fields and the cotton and corn needs gathering badly.

NEW ORLEANS, La., Sept. 6.—A letter from Leflore county, says armed negroes are now scattered in squads in the swamps and are being pursued by three hundred armed white men. Negroes, being refused ammunition at Jamison's store on the Tallahatchie river, burned the building. A posse pursued, and about forty negroes were killed at the other end of the parish.

Governor Lowry is severely denounced by the white people of Leflore for not sending Cromwell back to them. They charge that Colonel John Hampton, lessee of the state penitentiary, used his influence to save Cromwell, who is an ex-convict.

VITRIOL IN HIS EYES.

A Bourbon Doctor is Given a Severe Punishment.

BOURBON, Ind., Sept. 6.—Mrs. Myers, the wife of a blacksmith, Wednesday night threw vitriol in the face of Dr. T. F. Linn, a prominent physician, destroying his sight. Her brother then assaulted the doctor, giving him a terrible whipping. It is charged that the doctor took advantage of a professional call to betray the woman. Her husband finding it out concocted with his brother-in-law, the plot to punish the doctor. The husband left town and the wife invited the doctor to the house. When he arrived the assault was made. The victim is in a critical condition. No arrests have been made.

CHICAGO WANTS IT.

George M. Pullman Gives $100,000 to the World's Fair Fund.

CHICAGO, Sept. 6.—George M. Pullman has subscribed $100,000 to the world's fair fund. To a reporter, who called on him, Mr. Pullman would only admit that he had seen the advisability of giving an immediate impetus to the work of raising $5,000,000 by securing a half million in one lump from five citizens of Chicago in subscriptions of $100,000 each. Who the four besides Mr. Pullman are has not been divulged, but P. D. Armour and Marshall Field are mentioned as two of them.

INTO THE ABYSS BELOW!

The Tragic Death of Mrs. Lawrence at Niagara Falls Vividly Described.

NIAGARA FALLS, Sept. 6.—Mrs. Lawrence deliberately walked to the little step-off place in the park about two hundred and fifty feet from the brink, threw her parasol and pocket book into the rapids, and jumped in herself. There was a considerable crowd around, and they helplessly watched the woman as she floated to certain death. She laughed, but not insanely, so the eye witnesses say. When almost at the brink an eddy caught her, twirled her around, and she went over head first into the abyss below. All the way down she had smiled and laughed and waved her hands, and this she kept up even when going head-first over the falls.

The woman's body was within fifteen feet of Prospect Point and people there were horrified. A photographer tried to take a view of the suicide, but the torrent was too quick for him, and Mrs. Lawrence's death smile will only last in the minds of those who saw her die. Everybody watched the torrent below to see if the body came up. In less than five minutes the woman's dress was washed ashore, not far from the foot of the falls, and ten minutes later her naked body came up in the still water near the new suspension bridge and floated on its dark green surface.

It was a sight never to be forgotten by those who saw it.

Mrs. Lawrence was nearly six feet tall and weighed 160 pounds. The woman was dead. Her neck had evidently been broken when she plunged headforemost over the cataract. The corpse floated down a few hundred feet and touched a current which pulled it under the surface, and it was not seen afterward. A telephone message sent from Suspension Bridge to Lewiston, at 10 o'clock last night, was answered by Coroner Robinson that the body had not been recovered. He thought that it was stuck in the whirlpool and some days might elapse before it was given up.

TO SETTLE AN ESTATE.

The Identity of an Unknown Dead Man is Sought to Be Established.

MANSFIELD, Ohio, Sept. 6.—J. K. Anderson, of Toledo, and E. K. Emerick, of Ypsilanti, Minn., were in the city last night making inquiries concerning the body of an unknown man found in Pugh's woods five miles east of this city. They think the body is that of A. C. Emerick, a brother of E. K., who has been missing a long time and from the tenor of a letter written a friend it is supposed he contemplated suicide.

If they can establish the identity of the unknown as that of the missing Emerick it will enable them to settle an estate in which the Emericks are interested. The two Emericks were engaged in the sale of Sapolitan, a preparation for cleaning metals, and Anderson was a general agent. The last four years both A. C. Emerick and Anderson made Toledo their headquarters.

CLEVELAND, Ohio, Sept. 6.—The body of a well dressed man, evidently a foreigner, was found in the lake, just inside the breakwater, here, this morning. Foul play is suspected, as around one wrist was tied a piece of rope, which, it was evident, had also been fastened to the other arm.

DEADLY DYNAMITE!

A Frightful Explosion at Antwerp by Which 126 Persons are Killed and Others Injured.

ANTWERP, Sept. 6.—A large quantity of dynamite exploded in a cartridge factory here to-day, totally demolishing that portion of the building in which the explosive was kept. The factory was located in the vicinity of the Bourse, which at the time of the explosion was crowded. Burning fragments of the factory were hurled against the Bourse, setting it on fire and creating a panic among the members, several of whom were injured.

Of the employes of the factory 126 were killed and many others in a nearby building were badly wounded.

The explosion occurred in a factory situated immediately back of the docks, upon which millions of cartridges were being unloaded. Large petroleum stores stood adjacent to the factory and these were set on fire by the burning fragments and now are burning fiercely.

Don't put much sweet stuff on paper. If you do you will hear it read in after years, when your wife has some especial purpose in inflicting upon you the severest punishment known to a married man.

THE Ohio state fair is in progress this week at Columbus.

THE highest millinery authorities say that velvet bonnets will be the fashionable thing.

ONE of the largest colored churches in Washington has presented Fred Douglass with a handsomely bound Bible.

THE largest bar of gold ever cast in the world was turned out at the United States assay office at Helena, Montana, this week, weighed 600 pounds, and is worth a little over $100,000. It will be placed on exhibition at the Minneapolis exposition.

THE oyster has beaten the school boy and ended his vacation. He returned to us just six days ago. During the months having no "r" in them he rests and grows fat and comes back to us with the September days. He'll remain for the winter. His name will be on many a restaurant sign and he'll introduce himself to us at 25 cents a dish. The return of the oyster is welcomed by all lovers of the bivalve and those who do not love him are few indeed. Greetings to the oyster!

A SPECIAL to the Detroit *Free Press* says: "The fiat has gone forth that Tanner is to go. Secretary Noble said a short time since to a gentleman who is my informant that either Tanner must go or he would. The exact date Tanner is to resign is not known, but it is presumed not until after the fall elections. Tanner as a surplus spender has attained a certain popularity among the old soldiers and the administration has been rather chary in tackling him. As a matter of fact, while Tanner has been credited with opening wide the doors to applicants for pensions, the administration set the pace long before Tanner became pension commissioner by boosting what it was going to do for the soldiers. Bussey's rulings on pension cases are not one whit less ridiculous than some of Tanner's acts. Between Bussey and Tanner the pension system has been brought into ridicule. Why Bussey should be permitted to remain and Tanner be ousted is a question."

A CATHOLIC CENTENNIAL.

The centennial anniversary of the establishment of the Catholic church in the United States, which is to take place in Baltimore on the 11th, 12th and 13th of November, promises to be one of the greatest religious events that has ever taken place in the Monumental City. It will bring together an imposing assemblage of the Catholic hierarchy, as well as a large concourse of the Catholic laity. Nearly all the archbishops and bishops of the United States will be present and the pope will send a representative delegation from the vatican. Canada will be represented by a number of prelates and South America will also send a delegation. The whole affair will be under the immediate direction of Cardinal Gibbons.

A number of subjects have been selected for consideration and discussion, among them being: "The Lay Action of the Church," "Charities," "Education," "Societies," "Immigration," "Civilization" and "The Progress Made by the Catholic Church During the Last Century." George D. Wolff, LL. D., editor of the *Catholic Standard* and *Catholic Quarterly Review*, will read a paper on "The Catholic Press."

MR. BERGHOFF'S CARD.

Ex-City Treasurer H. C. Berghoff has a communication in this morning's *Journal*. Among other things he says:

"The amount in the treasury August 31, 1889, separate from the water works fund, was $95,024.10; or $46,024.10 more than in 1883.

"The second installment will bring about $65,000 more taxes, making a grand total available until next duplicate, of $150,024.10, as against $49,000 in 1883.

"It is true $39,689.81 belongs to the city hall fund, and can not legally be used for any other purpose, but I think no jury would be found that would send a man to prison who would borrow, in case of necessity, from this fund, belonging to the city, for a month or two in order to save interest for the city.

"Aside from this the city has $18,000 or more in the interest fund than is necessary. This can readily be transferred to the general fund.

"But the whole case in a nutshell is this:

"If the city, from 1883 to 1889—with $15,000,000 property appraisement and $1.00 levy, with a bonded debt of $625,000 and only $49,000 cash on hand—could pay off about $90,000 of its bonded debt and still have $100,000 more cash available now than then, why cannot the present government take the same tax levy, with $18,000,000 property appraisement and $150,000 available money, and less interest to pay, and keep out of the hole?

"Then take the sum of about $30,000 per annum, formerly saved, and apply it to the payment of debts and improvement of the city.

"To increase the appraisement to the proper value is right and just, but to increase the levy 15 cents on $100, so as to raise a net revenue over former years of $47,000, is wrong. For instance, add to this $47,000 the $30,000 annually saved heretofore and you have $77,000 extra money which the council can expend outside of its regular routine bills during next year, and then not taking into consideration the net earnings of water works. The money should be left in the pockets of the people."

NOT NOW!

The County Commissioners Will Not Erect an Additional Building at the Asylum at Present.

Supt. John Wilkinson, who filed a petition with the county commissioners yesterday asking for relief from the crowded condition of the insane wards of the county asylum, will probably have to endure the conditions the coming winter, as no building will be erected this year. This is unpleasant for the efficient superintendent, who has crowded forty-four patients into a space intended for twenty-four. He is at wits end to know what he is to do.

The following insane patients are now at the asylum:

Peter McTague, Mr. Booker, Henry Quinlan, Martin Barens, Thos. Finn, Fred August, Michael O'Connor, Lewis Rheine, Peter Winters, Jacob Parker, Antony Kemp, Patrick Kane, Claus Shyall, Joseph Metan, Lewis Schrader, Henry Neireiter, Perry Snurr, Paul Seibelist, Wm. Palmer, Henry Palmer, T. J. Hammond, Peter Walsmuth, John Spring, Christian Kerkhoff, Rebecca Albright, Amanda Smith, Barbara Dagitz, Barbara Reese, Mary Klinger, Rebecca Clark, Mary Buquardt, Mary Grover, Barbara Shellner, Ellen Fitzgerald, Caroline Rabel, Lizzie Schreck, Mrs. Welker, Ellen Keefe, Mary Sprankle, Martha Gouty.

The above are all chronic cases. They have all been returned from the asylum except Reese, Fitzgerald and Shyall.

The games played yesterday were as follows:

Pond's Extract has long been a friend of mine and the various afflicted ones with whom I come in contact. It truly seems a conscientious remedy, and one has only to read upon the wrapper the many ills for which it is a cure to realize fully what an overwhelming load of responsibility each bottle bears upon its shoulders. Out upon the pessimist who thinks the world is not advancing! I shall shake my bottle of Pond's Extract in his face, loudly and anoint his demented head with the same; and when the cure is established write you to add, "Pessimism" to the next labels you have printed.

JUNIATA STAFFORD.
697 North Park ave., Chicago, Ill.

There was a terrible epidemic of dysentery and bloody flux in Pope County, Illinois last summer. As many as five deaths occurred in one day. Messrs. Walter Brothers, of Waltersburg, sold over 300 bottles of Chamberlain's Colic, Cholera and Diarrhœa Remedy during this epidemic, and say that they never heard of its failing in any case when the directions were followed. It was the only medicine used that did cure the worst cases. Many persons were cured by it after the doctors had given them up. 25 and 50 cent bottles for sale by Geo. H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Grates and open stoves using No. 5 Mixer or smaller, where boilers or furnaces are also used for heating the premises, shall be charged $2.50 each per annum.

The company will make all necessary connections with its street mains and run service pipes to the curb line without expense to the consumer.

The mixers are owned by the company, and are furnished without charge. Patrons are cautioned against interfering with them in any manner. Any defective service on the part of the company will be promptly attended to, upon notice to the office. A damper in the stove pipe is necessary to insure successful service.

All bills are due on the last day of the month, and payable in advance AT THE OFFICE OF THE COMPANY. Ten days' grace is allowed to patrons who pay promptly, but BILLS MUST BE PAID ON OR BEFORE THE 10TH OF EACH MONTH TO HAVE DISCOUNT. Allowing the time for discount to expire before making payment does not give an extension of time on the bill.

All applications, notices and complaints must be made at the office to insure prompt attention.

The business of the company MUST be transacted AT ITS OFFICE. If you do not clearly understand any point in this circular, call at this office and explanations will be cheerfully given.

☞ The mixer is the bulb through which the gas passes to be mixed with air. A No. 6 mixer is the size generally used for domestic purposes and will supply sufficient gas for heating equal to an ordinary hard coal stove, burning from 4½ to 5 tons of coal during the season. No. 7 and upward are for hot air furnaces and steam heating apparatus.

No. 5 mixer has 6-32 opening.
No. 7 mixer has 8-32 opening.
No. 9 mixer has 6-42 opening.

Special attention is called to the annual rates, which are much below the cost of coal, wood or gasoline.

Furnace or cook stove will be counted as one stove, and where additional fires are used they will be figured on the basis of reduction named in price list.

Annual Contracts are payable in six monthly installments, commencing with the date of connection, between November 1 and May 1, and continuing to April 1, and commencing again November 1 if necessary to complete six monthly installments. If connection under Annual Contracts are made after May 1, but previous to November 1, then such monthly payments shall commence November 1 and continue to April 1.

Any consumer using $45.00 worth of gas per year according to above schedule shall have the right to require gas to be furnished by meter measurement instead of schedule rates; in which case the company shall have the right to charge ten (10) cents per 1,000 feet. Standard meters will be furnished by the company.

For all manufacturing purposes and for all other consumers not designated in the foregoing schedule, gas shall be furnished at the option of the consumer as follows:

First, by special agreement, or second, by meter measurement not exceeding seven (7) cents per 1,000 cubic feet.

I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family. I took S.S.S. by advice, which, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured me.

LONG LIFE.

There is nothing in the world, more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, it really is a mine of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

Mr. Fred Foster and wife will leave about October 1 for Pueblo, Col., probably to remain there permanently. It had been Mr. Foster's intention to return to Las Vegas, New Mexico, but he abandoned the idea. His health is improving.

Not long ago THE SENTINEL stated that the rumor was current that with the retirement of General Manager E. T. Jeffery, of the Illinois Central railroad, the well known and popular ex-Wabash official, Mr. K. H. Wade, would be appointed to fill the vacancy. There is a prevailing idea that such official change will come to pass.

Effie Ellsler, the best known and most natural actress with her excellent company, including Frank Weston and John Ellsler, will present "The Governess" at the Temple Monday next. Miss Ellsler was the lady who created the part of Hazel Kirke, which ran for three years in New York city and twelve hundred nights on the road.

Toledo *Bee*: "Yesterday at Fort Wayne Dr. Thomas Hubbard, of this city, was married to Miss Clarissa L. Graves, a popular belle of Fort Wayne. Dispatches say it was the fashionable event of the season in that city. The marriage is somewhat of a surprise to the doctor's friends here, but all are prepared to give him and his bride a warm welcome."

Governor Hovey, Treasurer Lemcke and Auditor Carr, composing the state's financial board, have advertised for proposals for the $700,000 temporary loan bonds, authorized by the last legislature. The bonds will be payable at the financial agency of the state in the city of New York ten years after date of issue and will be redeemable at the same place, at the pleasure of the state, after five years.

THE BUSY WHEEL.

The News of the Day as Gathered Around the Railroads and Manufactories of the City.

The office of the Natural Gas company is being improved and furnished.

Louis Brown, of the Bass works, is at the City hospital ill with typhoid pneumonia.

Charles Bates, of the Pittsburg blacksmith shops, has resigned his position at that place.

General Superintendent E. B. Taylor, of the Pittsburg, passed through the city last evening.

J. V. Maher, of Superintendent Gorham's office, has gone to Denver, Col., on a pleasure trip.

Foreman R. H. Harrison, of the Pittsburg car shops, has been on the sick list for several days.

H. Durand, advertising solicitor of the Wabash, with headquarters at St. Louis, was in the city to-day.

Ernest Rehling, boiler maker at the Wabash, is off duty on account of injuries received from being kicked by a cow.

Superintendent Victor A. Sallot, of the Olds wheel works, holds the reins behind a fast horse, and he knows how to drive.

The Fort Wayne Furniture company received an order yesterday for half a car load of folding beds from Washington, D. C.

William Madison, jr., machinist, is acting foreman of the machinery department of the Pittsburg car shops this week.

The Wabash sells excursion tickets to Toledo and return next week on account of the Tri-State fair, for $2.50 for the round trip.

J. S. Winnett, general agent, and T. G. Winnett, traveling freight agent of the Chicago, St. Paul and Kansas road, were in the city yesterday.

General Ticket Agent E. A. Ford and other officials of the Pennsylvania road, passed through the city last evening on a special coach attached to No. 8.

Mr. Adams, statistician of the interstate commerce commission, figures up the total sum invested in the lines of the Pennsylvania railroad system at $748,040,020, divided as follows: Pennsylvania company, $43,532,016; Western lines, $204,721,505; Pennsylvania railroad and branches, $361,648,620; controlled lines, $138,137,888. Of this sum $522,726,989 is represented by capital stock, $362,214,148 funded debt, and $76,090,592 floating debt.

Nearly ten thousand men who are or have been in actual service as railroad brakemen have signed a petition in which the inter-state commerce commission is urged to take action that shall cause the adoption of automatic couplers and brakes on freight cars throughout the country, in order that "the terrible slaughter of brakemen on the railroads every year may be largely diminished." As the commission is not empowered by existing law to require the desired changes to be made, the petitioners ask that the attention of congress shall be directed to the subject.

The distribution of Poor's Manual, twenty-second annual issue, for 1889, is now going on. The preface is full of instructive matter. It shows that a population of 3,000,000 in 1789 has grown to 65,000,000, and in the sixty years ending in 1888 has built for itself 150,082 miles of railroad, at a rate, since 1865, of 5,200 miles per annum. Mr. Poor estimates the number of railroad employes at six per mile (say 936,000); the number of employés in affiliated and dependent industries at five per mile (780,000). These, with their families, make a total of 8,850,000, or nearly a seventh of the population.

Peculiar

In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "tower of strength abroad," peculiar in the phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite.

"Con Conroy & Co." is being billed for Wednesday and Thursday, Sept. 11 and 12.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free*, that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

Harvest Excursions.

The Wabash railroad will run a series of harvest excursions to points in Kansas, Nebraska, Oklahoma, Missouri, Arkansas, Texas, New Mexico, Utah, Idaho Colorado, Wyoming, Dakota, Montana, Minnesota, Iowa, Tennessee, Louisiana, and Mississippi on September 10 and 24, and October 8, 1889. Tickets will be sold at one fare for the round trip, and will be limited to return passage thirty days from date of sale. Full and explicit information furnished upon application to

PRETTY FLOWERS.

The Sentinel's Home Reporter Gets Stuck on Flowers for Window Decorations.

Tell me ladies, you who try to make home pleasant and inviting, what decorative art is less expensive, more cheering and as beautiful as a few well kept house plants—an ivy well trained and a marbling canary or two?

One of the prettiest window embellishments imaginable can be produced by filling the window sills with ferns. They only require a moderate temperature, little sun, moist sandy soil and remain green the entire winter. The time is fast approaching when winter evening enjoyment will be thought of, but how to make the days pleasant should not be forgotten.

Where there is a fire place; the fender may be leveled with small pieces of board; these form a foundation to spread the soil on; here the ferns can be set and they grow luxuriantly in all seasons of the year. Why, just think, a casserole, bowl, in fact almost any broad-brimmed vessel, can be appropriated (that's a good word) from the china closet, and when filled with forest plants of delicate green verdure, will make pleasing ornaments for most any room and rest the weary eye.

The Mistletoe bough in December is not any more pleasing in appearance than a hanging basket of ferns in a bay window or in a double door. The basket should be well filled, and if a few sprigs of the "Wandering Jew" be added, this lovely trailing plant will add greatly to its embellishment. If ladies do not care to trouble with the planting, any florist will gladly arrange the same and keep it for a "good start" till wanted, and the expense is certainly within the reach of the most humble.

Another pretty device that will puzzle and interest the casual observer, can be produced with an ordinary tea cup, filling the cup with a cheap sponge and forcing into the cavities of the sponge common beans and peas, keeping well watered, and you will be not a little surprised to see the whole over-run with a beautiful green vine in a very short space of time. Heat and light will hasten its growth, therefore a sunny window is a preferable position for a novelty of this kind.

Here is another beauty for bay windows, a movable bracket, on each side a flower pot containing a heliotrope. With little care, say a drink of soap suds several times a day, you will find the pots completely covered with this bushy plant all winter and many a guest to your home can be presented with a spray when snow covers the ground. There are so many very inexpensive ways to ornament and so many pretty plants that are cheap, I dare not venture to name only the English ivy and smilax by way of suggestion for fear of exposing my ignorance, knowing that the ladies could make improvements upon any list not furnished by a practical florist, but if these few remarks by a novice will aid the ladies and enthuse new energy to make their homes a haven, the home reporter has been amply repaid. HOOSIER.

The Indiana State Republican association held a meeting at Spring Fountain park, Warsaw, closing yesterday. Wednesday the visiting members were the recipients of a banquet, in which W. H. Elliott, of the New Castle *Courier*, was master of ceremonies. Last night Congressman Owen, of Logansport, delivered a lecture, his theme: "The Benefit of Commercial Relations With South America." Prof. N. R. Leonard, of the *Gazette*, read a paper, "The Republican Press."

Huntington *Herald*: "Mrs. Louisa Strodel went to Fort Wayne this morning to attend the funeral of Henry Buhlerman, which will be held to-morrow afternoon. Mr. Strodel will join her to-morrow morning, as may also a number of other friends and relatives of the deceased."

People in general should know what's best to do in case of a sudden attack of bowel complaint. It is a well established fact that prompt relief may be had in any case of colic, cholera morbus, dysintery or diarrhoea by giving a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It acts quickly, can always be depended upon, and is pleasant to take. For sale by Geo. H. Loesch.
